Warning for Post 201 Members: Scam E-Mail Being Sent Requesting Info

Earlier this morning a number of Post 201 members started receiving an email suggesting that the Department of Georgia needed to verify some information about them.

DO NOT RESPOND. THIS IS A SCAM.

[Click here to see what the scam email looks like.](#)

Text in the email, which carries the signature of Georgia Department Commander Melvin Weaver, says that a “comprehensive member data verification project” has recently been launched by the department.

It also asks for “your help to confirm the accuracy of your record and fill in any information gaps.” The email also provides an “866” phone number and asks for your response within five days.

Post Commander Tom Billings says he has seen similar emails associated with other veteran- related organizations he works with. He also warned that you may continue to receive similar emails in the future even if you do not respond to this one.
